

Tip #1: Learn how to act like Google and other search engines.

Open your website, in your browser click on view, from the drop down click on page source. All that coding is what search engines see, find the title to your website, does that relate to you or what you sell. The title is the single most important code to a search engine and your next prospect. I don't care what business you are in, prospects are the life blood to that business. If you are interested I will teach you how to use a website to prospect for you.
